MEMORANDUM:

TO: Phil Arberg  
EMSL-LV

FROM: Michael McCeney, RPM *M. McCeney*  
Richardson Flat Superfund Site

SUBJECT: Request For Copies of Aerial Photographic Analysis  
Reports and Photo Enlargements for Richardson Flat, EPA  
ID UTD 980 952 840

This is a request for copies of existing aerial photo reports and enlargements of existing photos of the Richardson Flat Site. Specifically, I request the following:

1. Six (6) copies of EMSL Report # TS-PIC-91706. If possible, I would like these within 10 working days of receipt of this request.
2. Six (6) enlargements of Site photos dated October 14, 1990, June 20, 1984, August 17, 1981, and August 24, 1978. Each enlargement should be at an approximate scale of 1" = 200'. I would like these within five working days of this request, if possible.

Coverage of the photos provided in the existing report does not entirely meet my needs. I would like to talk with you about availability of existing photos which provide more coverage in the area of the Site. On the attached map I have sketched the boundary of my desired photo coverage.

I also request that you provide me with a cost estimate for this work so that I may generate a procurement request immediately. Please call me at (303) 294-7169 as soon as possible to discuss this matter further. Thank you for your attention in this matter.

cc: Bob Stone
